The alluvial soil is mainly clay with an abundance of mineral content providing the perfect terrain. We also ship a prosecco from one of our favourite growers north of Udine in Friuli.

We import Château Plaisance from the region of Frontonnais near Toulouse where the main grape varieties used are unusual. The wines have to contain a minimum of 50% Negrette, an unusual variety particular to the vineyards of Toulouse, the rest of the blend is made up by either of the two Cabernets, Gamay, Syrah and Cot or Merille. Thus giving the wine its typicity; a very dark colour, a complex nose of crushed black fruits and a full bodied, characterful, and fruity palate. Very good value and delicious, also available in magnums. We have added Alabets 100% Negrette to the range and the top of the range Tot Co Que Cal an amazing dense and powerful wine.

As little as ten years ago this region in the South of France produced wines only fit for the EEC wine lake. It is now one of the most progressive wine producing areas in the world.

## SAVOIE

We are the only importer of the amazing award winning wines from Domaine Jean Vullien. The Savoie & Haute Savoie are well known for their ski resorts, also for their beautiful lakes and now for their wines. We highly recommend the *Chignin Bergeron* a rare wine from the *Roussanne* grape variety, as well as the *Mondeuse Cru St Jean de la Porte* - vigorous & deep! The *Gamay* is great and a much cheaper alternative to *Beaujolais*.

## PROVENCE

All our wines from Provence come from the *Domaine de Curebeasse* owned by Jean Paquette, near Fréjus. He is a dedicated wine maker and his wines, particularly the white (made from the Rolle and Ugni Blanc grapes) consistently win prizes. Now in its 50<sup>th</sup> year the vineyard is run by his son Jerome the are celebrating this by changing the name to *Chateau Paquette*.

## GRAVES

Although almost equally divided between red wine and white, the great majority of top quality Graves is red. The distinguishing feature of the area is its open, gravelly soil, the result of Pyrenean glaciers in the Ice Age, giving the wine that is often described as "soft " and "earthy".

## POMEROL

It is only in the last hundred years that the name of Pomerol has been heard outside its immediate area. However in recent years, due to its small production and high quality, it has become a much sought-after wine.

## MÉDOC

The Médoc is the whole of the wedge of land north of Bordeaux between the Atlantic and the wide estuary of the Gironde - the united rivers Garonne and Dordogne. The vineyards all lie within a mile or two of its eastern shore on a series of low hills of stony silted soil.

## HAUT-MÉDOC

A typical Haut-Médoc is generous but not over-powerful, and in general the wines age well. With the same production as Médoc, Haut-Médoc is rather better known due mostly to the presence of its five first-growth wines.

## ST-ESTÈPHE

A scattering of six hamlets with steepish slopes and wooded parks, St-Estèphe tends to use a higher proportion of Merlot to Cabernet than the communes to the south, producing a strong long-lasting colour and having a coarser, more powerful flavour than Pauillac.

## PAUILLAC

The wine of Pauillac, the only town in the vineyard area of the Médoc, epitomises the qualities of all red Bordeaux - powerful and forceful but with great finesse. *Latour* and *Lafite* are world-famous Pauillac châteaux, however there are some very fine wines from less well-known producers, such as the two hearty cabernet-flavoured examples which follow here.

## MÂCONNAIS

All the wines we import from the Mâconnais are dry, white, made from the *Chardonnay* grape variety and produced by boutique wineries. The 'ABC' - anything but Chardonnay - does not apply here . . . The new Montbellet is so good we decided to list it as well!!

As usual the Talmard family have excelled themselves with their superb *Mâcon Uchizy* 2018. The *Pouilly Fuisse*, from Domaine Denuziller, has finesse & a lovely nuttiness and must not be confused with its closely named rival from the Loire Valley - Pouilly Fumé (of course a fantastic wine too but a *Sauvignon Blanc*!) Finally the *St Veran* is a good value white from Chavet.

## RED BURGUNDY

### CÔTE DE BEAUNE

The climate is more temperate than the Côte de Nuits with damper winds and the grapes ripen quicker. The wines in general are softer and need less time to mature.

## CÔTE DE NUITS

The red wines from this region are usually more concentrated and long lived than those of the Côte de Beaune. The *1er Fixin* from Joliet is a great rustic old fashioned style of wine. Also the range of wines from the *Domaine de Vougeraie* are stunning but very limited in supply.

## BEAUJOLAIS

### DOMAINE DE CHÂTEAU DE LA VALETTE

### PIERRE FERRAUD

The rest of our cru Beaujolais comes from Pierre Ferraud at Belleville-sur-Saône in the Beaujolais. This is a small family-owned company that produces a first rate range of wines. All Ferraud's red wine is aged for a short time in oak (unusual in the Beaujolais) and this helps create the individual taste of each of the crus.

Subject to change.

## NORTHERN RHÔNE

This region stretches for ninety kilometres, from Vienne in the north to Valence in the south. The vineyards are on steep hillsides of granite and schist soils, and enjoy a typically temperate continental climate. The red wines are made from pure syrah, and in the case of *Côte-Rôtie*, need at least eight years before drinking

An excellent vin de Pays also from the Domaine de Presidente, a blend of Cinsault, Carignaan, Syrah and Grenache very soft and drinkable.

This region starts about fifty kilometres south of Valence and extends as far as Montelimar to the south. The most famous wine from this region is Châteauneuf-du-Pape. Our latest find is from the Domaine de la Presidente named after its first owner who was the President of Provence. Their Cairanne is of particular note having great depth and lingering aftertaste. The Gigondas from Domaine des Pasquieres is grown in a 1.10ha vineyard and is 50% Grenache 50% Syrah, fermented together with a 24 day maceration and 9 months ageing in tank

## ALSACE

We source some of our Alsace wines from Philippe Gocker in Mittelwihr. This charming village lies only a few kilometres from Colmar and nestles at the foot of the Vosges Mountains. It is surrounded by the principal Grand Cru vineyards of Alsace. Just added the Pinot Blanc from Hunawwhir extremely good value and delicious!

### PIEMONTE

Although made from the Nebbiolo grape these wines are grown at a higher altitude and produce a softer wine than Barolo. This vineyard has been in the Ferrando family for four generations and is now run by Luigi and his two sons.

## SPAIN

We have increased the number of Spanish wines on our list this year due to popular demand. Tremendous progress is being made and the standard of wine is improving all the time. The wines from the Rioja Ugarte are extremely good value. All the reds have time in American oak and the white is light and refreshing made with viura.

## AUSTRIA

We are very excited to have found a superb range of wines from the Migsich family. The vineyards are on the edge of a small village called Antau in the Burgenland to the South – East of Austria near Lake Neusiedler. The wines from Migsich have not been imported to the UK before so we are thrilled to be the sole importer. The Gruner Weltliner is a fresh easy to drink wine and the Auslese and Trockenbeerenauslese are stunning. A must try!!

We have recently discovered some interesting and world class wines from ‘down under’. The wines have great individual style and represent great value being typical of their regions. The Australians have given the world of wine some great characters and technical expertise and in return the old world has finesse and subtlety which is now showing in Australian wine making. We have been very lucky in acquiring some small allocations of the very best from the following growers. Jim Barry from Eden Valley in South Australia with the Armagh. Gary Far, (who also works at Domaine Dujac) the maverick inspiration behind Bannockburn, Victoria.

## CALIFORNIA

### CLOS DU VAL

California produces lovely wines. California produces 96% of all wine in the USA. Californian wines survived prohibition & phylloxera.

*Clos du Val* started producing wine in the Napa Valley in the 1970's and this was closely followed by the purchase of land in the as yet undiscovered Carneros District.

All the varietals are outstanding!

## SOUTH AFRICA

### SIMONSVLEI (South Africa)

These wines are very well regarded in South Africa for their quality and good value. Simonsvlei nestles in the picturesque Groot Drakenstein and Paarl Valley with the magnificent Simonsberg (Simon's mountain) as backdrop. The cellar also offers stunning views of Paarl Mountain, the second largest granite outcrop in the world. Furthermore, Simonsvlei is only 40 minutes from Cape Town's Waterfront and 20 minutes from the historic towns of Stellenbosch and Franschhoek.

### CHAUTARA

Planted by David Godfrey in 2010 on virgin soil in the Overberg region eighty miles south east of Cape Town. This area which is 1000 feet above sea level has a cool climate sometimes getting slight frosts in the winter. The sea is only about 20 miles away and the soil well suited to the production of Chardonnay and Pinot Noir.

We think his wines are superb the white not unlike a Meursault and the Pinot typical Pinot qualities.

### OAK VALLEY

This historic estate in South Africa's Elgin Valley is more than just a winery. Founded in 1898 the farm is still family run and takes its name from the founders' love of oak trees, 4,000 of which are still planted on the estate today.

Among the vines are apple and pear orchards, greenhouses packed with fresh cut flowers, cattle, free range acorn fed pigs and 30km of mountain biking trails.

Forty-eight hectares of vineyards are planted predominately with Pinot Noir, Cabernet Sauvignon, Merlot, Sauvignon Blanc and Chardonnay the last of which won regional trophy at the Decanter World Wine Awards last year.
